A

Abortion, failure of vaginal wall cytologic smears to predict (McLennan and McLennan), 228
law, new, first year of experience in Colorado with (Droegemueller, Taylor, and Drose), 694
in midpregnancy by extraovular instillation of rivanol solution correlated with placental function (Manabe), 232
Acetophenide derivative of 16α,17α-dihydroxyprogesterone and estradiol, effect of, on skeletons of rats and mice (Simmons and Cummins), 1002
ACTH stimulation, abnormal estrogen responses to, in polycystic ovary syndrome (Barlow), 585 (Current investigation)
Actinomycosis, pelvic (Farrior and Rathbun), 908
Adenosine triphosphate and nicotinamide adenosine dinucleotide on normal term placentas, seasonal variation (Dawson, Clark, and McGanity), 1141
Adipose tissue, rat, effect of HPL and pregnancy on glucose uptake in (Leake and Burt), 39
Admission rates, psychiatric hospital, premenstrual-menstrual increases in (Janowsky et al.), 189
Adnexal hernia, bilateral, in infant (Messmore and Beecham), 593 (Comm. in brief)
Adolescent, pregnancy in. I. Preliminary summary of health status (McGanity et al.), 773
young, as obstetric risk (Zachler, Andelman, and Bauer), 305
Adrenal hyperplasia, congenital, simulated in male neonate associated with medroxyprogesterone therapy during pregnancy (Limbeck, Ruvalcaba, and Kelley), 1169 (Comm. in brief)
Adrenocortical effect, pituitary-, of short- and long-term progestational therapy (Ansari and Beck), 511
Adult female, basic voiding pressures in (Hodgkinson and Morgan), 755
Age, gestational, estimation of, in newborn infant (Farr and Mitchell), 380
Aged, cervical carcinoma in (Siegler), 1093
Alkaline phosphatase activity of polymorphonuclear leukocytes in relation to oral contraceptives (Sammour and Hilal), 823
Aluteal cycle (De Moraes-Ruehsen et al.), 1059
Amenorrhea, primary, cytogenetic studies of (Chiang), 1173 (Comm. in brief)
American Association of Obstetricians and Gynecologists, transactions of seventy-ninth annual meeting, 605-710, 755-822
Amniocentesis in prolonged pregnancy (Beischer, Brown, and Townsend), 496
Amnion, placenta and, canine, ultrastructure of (Wynn and Corbett), 878
Amniotic fluid cells, noncultured, enzymes in (Nadler and Gerbie), 710 (Current investigation)
examination, management of patients with Rh isoimmunization based on (Robertson), 713 (Pertinent comments)
Analgesia, local and caudal, labor and delivery under (Ueland and Hansen), 8
Anencephaly (Cassady), 1154
Anesthesia, obstetric, prolongation of, study of (Stenger, Blechner, and Prystowsky), 901
Anovulation, progress in investigation and treatment (Shearman), 444 (Current developments)
Anovulation—Cont'd
prolonged, subsequent to oral progestins (Rankin), 919
Anoxia and survival on resuscitation in newborn rabbits, response to, effect of pretreatment with hyperbaric oxygen on (Milligan and Talner), 504
Aortocaval compression by uterus in late pregnancy. IV. Circulatory homeostasis by preferential perfusion of placenta (Bieniarz et al.), 19
Arrhenoblastoma of ovary, fine structure of Leydig cells from (Berendsen et al.), 192
Arterial and uterine venous blood of pregnant goats, oxygen, carbon dioxide, and hydrogen ion concentration in (Cotter, Blechner, and Prystowsky), 1102
Autograph, intrauterine, acceptance of, influence of hormonal factors and intrauterine contraceptive devices on (Prager and Zipper), 86
Autologous transfusions for elective cesarean section (Milles, Browne, and Barrick), 1166 (Comm. in brief)
Azoospermia, undetected Klinefelter's syndrome as cause of (Chiang and Chiang), 592 (Comm. in brief)

B

Bilateral adnexal hernia in infant (Messmore and Beecham), 593 (Comm. in brief)
Bilirubin, placental transfer of, in pregnant monkey (Bashore, Smith, and Schenker), 950
Blood, arterial and uterine venous, of pregnant goats, oxygen, carbon dioxide, and hydrogen ion concentration of (Cotter, Blechner, and Prystowsky), 1102
coagulation, progestational agents and, II (Ambrus et al.), 994
flow and oxygen consumption of pregnant goats (Cotter, Blechner, and Prystowsky), 1098
uterine, changes in, during uterine contractions (Brotanek, Hendricks, and Yoshida), 1108
maternal and cord, fibrinogen and prothrombin in (Devi and Naganna), 73
plasma, human maternal and fetal, colloidal osmotic pressures of (Hinkley and Blechner), 71
peripheral, effect of gynecologic cancer on: altered in vitro erythrocyte kinetics of ^{86}Rb (Overstreet and Scott), 801
Book review, 302, 601, 891, 1175
Books received, 304, 604, 894, 1177
Breech presentation, cephalometry by ultrasound in, evaluation of (Scher), 1125

C

^{14}C-thiouracil, transfer of, during pregnancy (Sabbagha and Hayashi), 121 (Current investigation)
Calcification, placental (Hassler), 348
Canal, genital, upper, multiple malignancies of (Woodruff and Julian), 810
Cancer (*see also* carcinoma)
gynecologic, effect of, on peripheral blood: altered in vitro erythrocyte kinetics of ^{86}Rb (Overstreet and Scott), 801

*January 1, 1-165; January 15, 165-304; February 1, 305-464; February 15, 465-604; March 1, 605-754; March 15, 755-894; April 1, 895-1058; April 15, 1059-1196.

Cancer—Cont'd
of ovary, is conservative therapy ever justified in Stage I (IA) (Munnell), 641
uterine, localization of fibrinolytic activity in (Weiss and Beller), 1023 (Current investigation)
Candida albicans septicemia, successful treatment of (Horowitz, McCartin, and Gordon), 889 (Comm. in brief)
Carbon dioxide, oxygen, and hydrogen ion concentration in arterial and uterine venous blood of pregnant goats (Cotter, Blechner, and Prystowsky), 1102
Carcinogenesis and epidermization during 20-methylcholanthrene treatment of mouse uterine cervix, relationship of Singh), 1084
Carcinoid, ovarian (Toker), 1019
Carcinoma (*see also* cancer)
arising in tuberculous Fallopian tube (Hameed), 595 (Comm. in brief)
cervical (Diddle), 92
in aged (Siegler), 1093
surgical treatment of, results of (Bean, Whetham, and Vernon), 465
five-year cure rate for (Masubuchi et al.), 566
endometrial, advanced, treatment of, with progestational agent (Peck and Boyes), 90
Cardiovascular dynamics, maternal. II. Posture and uterine contractions (Ueland and Hansen), 1
III. Labor and delivery under local and caudal analgesia (Ueland and Hansen), 8
Cation levels, nine, in term placentas, study of. II. Changes associated with toxemia of pregnancy and fetal prematurity (Dawson et al.), 1144
Cell(s), amniotic fluid, noncultured, enzymes in (Nadler and Gerbie), 710 (Current investigation)
boundary, uterine smooth muscle, fine structural changes of, during gestation (Dessouky), 1117
decidual, human, uptake of tritiated thymidine on (Kury, Rev-Kury, and Craig), 297 (Current investigation)
human, in vitro, some effects of diazepam in (Stenchever and Frankel), 836
Leydig, from arrhenoblastoma of ovary, fine structure of (Berendsen et al.), 192
stroma, endometrial, human, ultrastructural effects of norethynodrel and mestranol on (Wienke et al.), 102
Cephalometry by ultrasound in breech presentation, evaluation of (Scher), 1125
Certification by American Board of Obstetrics and Gynecology, 740 (Items)
Cervical carcinoma (Diddle), 92
in aged (Siegler), 1093
neoplasia, conization in evaluation and management of (Chao et al.), 574
Cervix, carcinoma of, surgical treatment of, results of (Bean, Whetham, and Vernon), 465
five-year cure rate for (Masubuchi et al.), 566
mouse, carcinogenesis and epidermization during 20-methycholanthrene treatment of, relationship (Singh), 1084
Cesarean section, elective, autologous transfusions for (Milles, Browne, and Kelley), 1166 (Comm. in brief)
Chemical composition of placenta in normal preterm, term, and intrauterine growth-retarded infants (Younoszai and Haworth), 262
Chorionic gonadotropin $-I^{131}$, human, ovarian scan with (Hreshchyshyn and Kazeto), 434 (Current investigation)
Chromatography, gas-liquid, simultaneous determination of urinary pregnanolone, pregnanediol, and pregnanetriol by (Vela, Acevedo, and Campbell), 179
Chromic phosphate, radioactive colloidal, in treatment of ovarian malignancies (Hester and White), 911
Chromium levels, hair, of nulliparous and parous women, comparison of (Hambidge and Rodgerson), 320
Chronic implantation of instruments in neck of primate fetus for physiologic studies and production of hydramnios (Suzuki and Plentl), 272
Cigarette smoking and duration of pregnancy (Buncher), 942
Circadian rhythms of creatinine and electrolyte excretion in healthy pregnant women (Kalousek et al.), 856
Circulatory homeostasis by preferential perfusion of placenta (Bieniarz et al.), 19
Clomiphene, luteal phase insufficiency in patients treated with (Van Hall and Mastboom), 165
Coagulation, blood, progestational agents and (Ambrus et al.), 994
disseminated intravascular, during continuous infusion of endotoxin in rabbits (Beller, Graeff, and Gorstein), 544
Colloidal chromic phosphate, radioactive, in treatment of ovarian malignancies (Hester and White), 911
osmotic pressures of human maternal and fetal blood plasma (Hinkley and Blechner), 71
Colposcopy plus cytology (Scott, Brass, and Seckinger), 925
Communications in brief, 592-600, 888-890, 1163-1174
Compression, aortocaval, by uterus in late human pregnancy (Bieniarz et al.), 19
Congenital adrenal hyperplasia, simulated, in male neonate associated with medroxyprogesterone therapy during pregnancy (Limbeck, Ruvalcaba, and Kelley), 1169 (Comm. in brief)
Conization in evaluation and management of cervical neoplasia (Chao et al.), 574
Contraception with Gräfenberg ring (Hill), 200
oral, started early in puerperium (Frank, Alpern, and Eshbaugh), 112
Contraceptive devices, intrauterine, hormonal factors and, influence of, on acceptance of intrauterine autograft (Prager and Zipper), 86
oral, alkaline phosphatase activity of polymorphonuclear leukocytes in relation to (Sammour and Hilal), 823
estrogen-progestogen, monthly injections of, cyclic endometrial changes in response to (Sheffield, Soule, and Herzog), 828
pregnant women and those taking, zinc and copper levels in (O'Leary and Spellacy), 131 (Current investigation)
Contractility, uterine, on first day of the puerperium (Cibils and Hendricks), 238
in toxemias of pregnancy (Noreiga-Guerra et al.), 244
Contractions, uterine, changes in uterine blood flow during (Brotanek, Hendricks, and Yoshida), 1108
posture and (Ueland and Hansen), 1
Copper levels, zinc and, in pregnant women and those taking oral contraceptives (O'Leary and Spellacy), 131 (Current investigation)
Cord blood, maternal and, fibrinogen and prothrombin in (Devi and Naganna), 73
umbilical, and umbilical vessels, human, innervation of (Fox and Jacobson), 384
Corpus luteum, prolongation of survival time of (Rivera and Sherman), 986
Creatinine and electrolyte excretion in healthy pregnant women, circadian rhythms of (Kalousek et al.), 856
Current developments, 138-157, 444-463, 723-739, 1034-1057

Cycle, aluteal (De Moraes-Ruehsen et al.), 1059
menstrual, symptoms, typology of (Moos), 390
ovarian, uterine vascular changes during (Greiss and Anderson), 629

Cyclic endometrial changes in response to monthly injections of estrogen-progestogen contraceptive drug (Sheffield, Soule, and Herzog), 828
Cytogenetic studies of primary amenorrhea (Chiang), 1173 (Comm. in brief)
Cytologic smears, vaginal, failure of, to predict abortion (McLennan and McLennan), 228
Cytology, colposcopy and (Scott, Brass, and Seckinger), 925
peritoneal lavage and filtration for (Floyd et al.), 425

D

Decidual cells, human, uptake of tritiated thymidine in (Kury, Rev-Kury, and Craig), 297 (Current investigation)
Delivery, labor and, under local and caudal analgesia (Ueland and Hansen), 8
Development, growth and, of human fetus prior to twentieth week of gestation (Hellman et al.), 789
Device, intrauterine, and changes in tubal histochemistry in rabbit, relationship between (Hussein and Ledger), 213
preimplantation effect of, in rabbit (Hussein and Ledger), 221
Diagnostic science, new, on launching (Donald), 609
Diazepam, some effects of, in human cells in vitro (Stenchever and Frankel), 836
Diazoxide, inhibitory effect of, in normal term labor (Landesman et al.), 430 (Current investigation)
Diffuse myometrial sclerosis (Murphy S.), 403
16α,17α-dihydroxyprogesterone, acetophenide derivative of, and estradiol, effect of, on skeletons of rats and mice (Simmons and Cummins), 1002
Dimensions, placental, and relations in preterm, term, and intrauterine growth-retarded infants (Younoszai and Haworth), 265
Disease, ovarian, polycystic, induction of, in rats by continuous light. I. Reproductive cycle, organ weight, and histology of ovaries (Singh), 1078
trophoblastic, methotrexate therapy in, at Provincial Taipei Hospital (1955-1966) (Hsu and Cheng), 60
with pulmonary metastasis (Turner), 909
Disseminated intravascular coagulation during continuous infusion of endotoxin in rabbits (Beller, Graeff, and Gorstein), 544
Dissociation curves, oxygen, of lysed maternal and fetal erythrocytes (Seeds, Hellegers, and Battaglia), 68
Dizygotic twins, erythroblastosis in, uneven degree of (Rezai and Montague), 1163 (Comm. in brief)
DNA content of mucinous tumors of ovary (Weiss, Richart, and Okagaki), 409
Drug, contraceptive, estrogen-progestogen, monthly injections of, cyclic endometrial changes in response to (Sheffield, Soule, and Herzog), 828

E

Economics of population growth (Kaplan and Chez), 133 (Pertinent comments)
Electrocardiogram, fetal, obtained with subcutaneous maternal electrodes (Friedman and Eckerling), 1160 (Current investigation)
quantitative studies in. III. Comparison of breech and cephalic presentation data; endocrine basis for fetal rotation hypothesis (Larks, Webster, and Larks), 282
Electrodes, subcutaneous maternal, fetal electrocardiogram obtained with (Friedman and Eckerling), 1160 (Current investigation)
Electrolyte excretion, creatinine and, in healthy pregnant women, circadian rhythms of (Kalousek et al.), 856
Emergencies, surgical, in neonate (Ravitch and Rowe), 1034 (Current developments)
Endometrial carcinoma, advanced, treatment of, with progestational agent (Peck and Boyes), 90
changes, cyclic, in response to monthly injections of estrogen-progestogen contraceptive drug (Sheffield, Soule, and Herzog), 828
sarcoma in 14-year-old girl (Doolan), 909
stroma cell, human, ultrastructural effects of norethynodrel and mestranol on (Wienke et al.), 102
Endometrium, menstrual, fibrin in, identification of (Salvatore), 537
Endotoxin, continuous infusion of, in rabbits, disseminated intravascular coagulation during (Beller, Graeff, and Gorstein), 544
Endotracheal intubation, routine, in obstetrics (Smiler et al.), 947
Enzymes in noncultured amniotic fluid cells (Nadler and Gerbie), 710 (Current investigation)
Epidemiologic study of prematurity. II. Relation to prenatal care, birth interval, residential history, and outcome of previous pregnancies (Terris and Gold), 371
of smoking, heart volume, employment, and physique (Terris and Gold), 358
Epidermization, carcinogenesis and, during 20-methylcholanthrene treatment of cervix, relationship of (Graham), 1084
Erythroblastosis fetalis, intrauterine fetal transfusion in treatment of (Horger and Hutchinson), 959
uneven degree of, in dizygotic twins (Rezai and Montague), 1163 (Comm. in brief)
Erythrocyte kinetics of ^{86}Rb, altered in vitro (Overstreet and Scott), 801
lysed maternal and fetal, oxygen dissociation curves of (Seeds, Hellegers, and Battaglia), 68
Estradiol, acetophenide derivative of 16α,17α-dihydroxyprogesterone and, effect of on skeletons of rats and mice (Simmons and Cummins), 1002
Estrogen, effect of, on intravenous glucose tolerance in women (Goldman and Ovadia), 172
feedback control mechanism, comparison of between women with normal and polycystic ovaries (Lopez, Migeon, and Jones), 555
-progestogen contraceptive drug, cyclic endometrial changes in response to monthly injections of (Sheffield, Soule, and Herzog), 828
responses, abnormal, to ACTH stimulation in polycystic ovary syndrome (Barlow), 585 (Current investigation)
Excretion, creatinine and electrolyte, in healthy pregnant women, circadian rhythms of (Kalousek et al.), 856
Extraovulvar instillation of rivanol solution, abortion in midpregnancy by, correlated with placental function (Manabe), 232

F

Fallopian tube fluid in monkey, some observations on (Mastroianni et al.), 703
pathology in human fertility, operative treatment of (O'Brien, Arronet, and Eduljee), 520
tuberculous, carcinoma arising in (Hameed), 595 (Comm. in brief)
^{59}Fe and ^{131}I, maternal-fetal transport and distribution of, in humans (Dyer et al.), 290 (Current investigation)
Feedback control mechanism, estrogen, comparison of, between women with normal and polycystic ovaries (Lopez, Migeon, and Jones), 555
Fertility, human, Fallopian tube pathology in, operative treatment of (O'Brien, Arronet, and Eduljee), 520

Fetal electrocardiogram obtained with subcutaneous maternal electrodes (Friedman and Eckerling), 1160 (Current investigation)
quantitative studies in. III. Comparison of breech and cephalic presentation data; endocrine basis for fetal rotation, hypothesis (Larks, Webster, and Larks), 282
Fetal malnutrition, intrauterine, human placentas from normal pregnancies and pregnancies associated with, pathways of glucose metabolism in (Sybulski and Tremblay), 1148
placental glycogen content and utilization in vitro in (Sybulski and Tremblay), 257
and maternal immunoglobulin levels during pregnancy (Gusdon), 895
transfusion, intrauterine, in treatment of erythroblastosis fetalis (Horger and Hutchinson), 959
Fetus, human, growth and development of, prior to twentieth week of gestation (Hellman et al.), 789
Fibrin in menstrual endometrium, identification of (Salvatore), 537
Fibrinogen and prothrombin in maternal and cord blood (Devi and Naganna), 73
Fibrinolytic activity in uterine cancer, localization of (Weiss and Beller), 1023 (Current investigation)
Filtration, peritoneal lavage and, for cytology (Floyd et al.), 425
Fine structural changes of uterine cell boundary during gestation (Dessouky), 1117
structure of Leydig cells from arrhenoblastoma of ovary (Berendsen et al.), 192
Floor, urethral, loss of, with total urinary incontinence (Symmonds), 665
Flow, blood, and oxygen consumption in pregnant goats (Cotter, Blechner, and Prystowsky), 1098
uterine, changes in, during uterine contractions (Brotanek, Hendricks, and Yoshida), 1108
Fluid, amniotic, cells, noncultured, enzymes in (Nadler and Gerbie), 710 (Current investigation)
examination, management of patients with Rh isoimmunization based on (Robertson), 713 (Pertinent comments)
Fallopian tube, in monkey, some observations on (Mastroianni et al.), 703
Foam molds, silicone, vaginal reconstruction with (Deen), 930
Freeze preservation of human sperm (Behrman and Ackerman), 654
Friction between fetal head and uterine wall during normal labor and lower uterine spasm (Lindgren and Holmlund), 939

G

Gas-liquid chromatography, simultaneous determination of urinary pregnanolone, pregnanediol, and pregnanetriol by (Vela, Acevedo, and Campbell), 179
Genital canal, upper, multiple malignancy of (Woodruff and Julian), 810
tumors in mice, induction of, by 20-methylcholanthrene, effect of parenteral steroids on (Blanzat-Reboud and Russfield), 96
Genitals, female external, and intra-abdominal rudimentary testes, intersexuality characterized by (Boczkowski and Teter), 1167 (Comm. in brief)
Gestation, fine structural changes of uterine smooth muscle cell boundary during (Dessouky), 1117
twentieth week of, growth and development of human fetus prior to (Hellman et al.), 789
Gestational age, estimation of, in newborn infant (Farr and Mitchell), 380
Girl, 14-year-old, endometrial sarcoma in (Doolan), 909
Glucose metabolism in human placentas from normal pregnancies and from pregnancies associated with intrauterine fetal malnutrition, pathways of (Sybulski and Tremblay), 1148
Glucose—Cont'd
tolerance, intravenous, in women, effect of estrogen on (Goldman and Ovadia), 172
uptake in rat adipose tissue, effect of HPL and pregnancy on (Leake and Burt), 39
Glycine-1-C^{14} incorporation into liver protein of rat, effect of placental lactogenic hormone on (Burt, Pegram, and Leake), 44
Glycogen content, placental, and utilization in vitro in intrauterine fetal malnutrition (Sybulski and Tremblay), 257
Gonadotropin, human chorionic, –I^{131}, ovarian scan with (Hreshchyshyn and Kazeto), 434 (Current investigation)
Gonococcal infection in prenatal clinic (Waters and Roulston), 532
Gräfenberg ring, contraception with (Hill), 200
Group A, type 33, β-hemolytic streptococcal outbreak on maternity and newborn service (Tancer, McManus, and Bellotti), 1028 (Pertinent comments)
Growth and development of human fetus prior to twentieth week of gestation (Hellman et al.), 789
hormone, human, plasma insulin and, response of, in pregnant and postpartum females (Tyson et al.), 313
population, economics and (Kaplan and Chez), 133 (Pertinent comments)
Gynecologic cancer, effect of, on peripheral blood: altered in vitro erythrocyte kinetics of ^{86}Rb (Overstreet and Scott), 801

H

Haemophilus vaginalis, incidence of (Lewis and O'Brien), 843
Hair chromium levels of nulliparous and parous women, comparison of (Hambidge and Rodgerson), 320
Head, fetal, and uterine wall, friction between, during normal labor and lower uterine spasm (Lindgren and Holmlund), 939
Hemodynamic interrelationships, uterine and systemic, and response to hypoxia (Dilts et al.), 138 (Current developments)
Hernia, adnexal, bilateral, in infant (Messmore and Beecham), 593 (Comm. in brief)
High-risk obstetrics. II. Value of semiobjective grading system in identifying vulnerable group (Nesbitt and Aubry), 972
Histochemistry, tubal, in rabbit, intrauterine device and, relationship between (Hussein and Ledger), 213
Homeostasis, circulatory, by preferential perfusion of placenta (Bieniarz et al.), 19
Hormonal factors and intrauterine contraceptive devices, influence of, on acceptance of intrauterine autograft (Prager and Zipper), 86
Hormone, human growth, plasma insulin and, in pregnant and postpartum females (Tyson et al.), 313
placental lactogenic, effect of, on glycine-1-C^{14} incorporation into liver protein of rat (Burt, Pegram, and Leake), 44
and pregnancy, effect of, on glucose uptake in rat adipose tissue (Leake and Burt), 39
Human chorionic gonadotropin–I^{131}, ovarian scan with (Hreshchyshyn and Kazeto), 434 (Current investigation)
growth hormone, plasma insulin and, response of, in pregnant and postpartum females (Tyson et al.), 313
Hydramnios, production of, chronic implantation of instruments in neck of primate fetus for physiologic studies and (Suzuki and Plentl), 272
Hydrogen ion concentration, oxygen, carbon dioxide, and, in arterial and uterine venous blood of pregnant goats (Cotter, Blechner, and Prystowsky), 1102
Hydrops fetalis (Hutchinson and Horger), 967

Hyperbaric oxygen, pretreatment with, effects of, on response to anoxia and survival on resuscitation in newborn rabbits (Milligan and Talner), 504
Hyperplasia, congenital, simulated, in male neonate associated with medroxyprogesterone therapy during pregnancy (Limbeck, Ruvalcaba, and Kelley), 1169 (Comm. in brief)
Hyperventilation in obstetrics (Lumley et al.), 847
Hypoxia, uterine and systemic interrelationships and response to (Dilts et al.), 138 (Current developments)

I

^{131}I, ^{59}Fe and, maternal-fetal transport and distribution of, in humans (Dyer et al.), 290 (Current investigation)
Immunization, Rh, management of patients with, based on amniotic fluid examination (Robertson), 713 (Pertinent comments)
Immunoglobulin levels during pregnancy, fetal and maternal (Gusdon), 895
Implantation of instruments, chronic, in neck of primate fetus for physiologic studies and production of hydramnios (Suzuki and Plentl), 272
Incontinence, urinary stress, in women, surgical treatment of (Gaina), 1163 (Comm. in brief)
total, loss of urethral floor with (Symmonds), 665
Incorporation, glycine-1-C^{14}, into liver protein of rat, effect of placental lactogenic hormone on (Burt, Pegram, and Leake), 44
Infant, newborn, estimation of gestational age of (Farr and Mitchell), 380
Infection, gonococcal, in prenatal clinic (Waters and Roulston), 532
Inhibitory effect of diazoxide in normal term labor (Landesman et al.), 430 (Current investigation)
Injections, monthly, of estrogen-progestogen contraceptive drug, cyclic endometrial changes in response to (Sheffield, Soule, and Herzog), 828
Innervation of human umbilical cord and umbilical vessels (Fox and Jacobson), 384
Instruments, chronic implantation of, in neck of primate fetus for physiologic studies and production of hydramnios (Suzuki and Plentl), 272
Insufficiency, luteal phase, in patients treated with clomiphene (Van Hall and Mastboom), 165
Insulin, plasma, and human growth hormone, response of, in pregnant and postpartum females (Tyson et al.), 313
Intersexuality characterized by female external genitals and intra-abdominal rudimentary testes (Boczkowski and Teter), 1167 (Comm. in brief)
Intra-abdominal rudimentary testes, female external genitals and, intersexuality characterized by (Boczkowski and Teter), 1167 (Comm. in brief)
Intrauterine autograft, acceptance of, influence of hormonal factors and intrauterine contraceptive devices on (Prager and Zipper), 86
contraceptive devices, hormonal factors and, influence of, on acceptance of intrauterine autograft (Prager and Zipper), 86
and changes in tubal histochemistry in rabbit, relationship between (Hussein and Ledger), 213
preimplantation effect of, in rabbits (Hussein and Ledger), 221
fetal malnutrition, human placentas from normal pregnancies and from pregnancies associated with, pathways of glucose metabolism in (Sybulski and Tremblay), 1148
placental glycogen content and utilization in vitro in (Sybulski and Tremblay), 257
transfusion in treatment of erythroblastosis fetalis (Horger and Hutchinson), 959
Intravascular coagulation, disseminated, during continuous infusion of endotoxin in rabbits (Beller, Graeff, and Gorstein), 544
Intravenous glucose tolerance in women, effect of estrogen on (Goldman and Ovadia), 172
Intubation, endotracheal, routine, in obstetrics (Smiler et al.), 947
Items, 164, 464, 740, 1058, 1178

K

Karyotype, 45,X, in two generations, Turner's syndrome with, presence of (Boczkowski, Herman, and Jedrzejewski), 597 (Comm. in brief)
Kinetics, erythrocyte, of ^{86}Rb, altered in vitro (Overstreet and Scott), 801
Klinefelter's syndrome, as cause of azoospermia, undetected (Chiang and Chiang), 592 (Comm. in brief)

L

Labor and delivery under local and caudal analgesia (Ueland and Hansen), 8
normal, and lower uterine spasm, friction between fetal head and uterine wall during (Lindgren and Holmlund), 939
Lactogenic hormone, placental, effect of, on glycine-1-C^{14} incorporation into liver protein of rat (Burt, Pegram, and Leake), 44
Lavage, peritoneal, and filtration for cytology (Floyd et al.), 425
Law, abortion, new, first year of experience in Colorado with (Droegemueller, Taylor, and Drose), 694
Leukocytes, polymorphonuclear, alkaline phosphatase activity of, in relation to oral contraceptives (Sammour and Hilal), 823
Leydig cells from arrhenobastoma of ovary, fine structure of (Berendsen et al.), 192
Light, continuous, induction of polycystic ovarian disease in rats by. I. Reproductive cycle, organ weights, and histology of ovaries (Singh), 1078
Liver protein of rat, incorporation of glycine-1-C^{14} into, effect of placental lactogenic hormone on (Burt, Pegram, and Leake), 44
Localization of fibrinolytic activity in uterine cancer (Weiss and Beller), 1023 (Current investigation)
placental (Kohorn et al.), 868
radionuclide, accuracy of (Werch and Burdine), 354
Loop, uterine perforation following insertion of (Liao, Lee, and Chow), 224
Luteal phase insufficiency in patients treated with clomiphene (Van Hall and Mastboom), 165
Lysed maternal and fetal erythrocytes, oxygen dissociation curves of (Seeds, Hellegers, and Battaglia), 68

M

Malignancy, multiple, of upper genital canal (Woodruff and Julian), 810
ovarian, radioactive collodial chromic phosphate in treatment of (Hester and White), 911
Malnutrition, fetal, intrauterine, placental glycogen content and utilization in vitro in (Sybulski and Tremblay), 257
human placentas from normal pregnancies and from pregnancies associated with, pathways of glucose metabolism in (Sybulski and Tremblay), 1148
Maternal cardiovascular dynamics. II. Posture and uterine contractions (Ueland and Hansen), 1
III. Labor and delivery under local and caudal analgesia (Ueland and Hansen), 8

Maternal—Cont'd
-fetal transport and distribution of ^{59}Fe and ^{131}I in humans (Dyer et al.), 290 (Current investigation)
Maternofetal transfusion: immunologic and cytogenetic evidence (El-Alfi and Hathout), 599 (Comm. in brief)
Medroxyprogesterone therapy during pregnancy, simulated congenital adrenal hyperplasia in male neonate associated with (Limbeck, Ruvalcaba, and Kelley), 1169 (Comm. in brief)
M nopausal and postmenopausal ovary, steroidogenesis of (Mattingly and Huang), 679
Menstrual cycle symptoms, typology of (Moos), 390
endometrium, fibrin in, identification of (Salvatore), 537
Metabolism, glucose, in human placentas from normal pregnancies and from pregnancies associated with fetal malnutrition, pathways of (Sybulski and Tremblay), 1148
placental, effect of trace metals on (Dawson et al.), 253
Metals, trace, effect of, on placental metabolism (Dawson et al.), 253
Metastasis, pulmonary, trophoblastic disease with (Turner), 909
20-Methylcholanthrene, induction of genital tumors in mice by, effect of parenteral steroids on (Blanzat-Reboud and Russfield), 96
treatment of mouse uterine cervix, carcinogenesis and epidermization during, relationship of (Singh), 1084
Methylene blue, test, tubal patency evaluation by (Ansari), 1170 (Comm. in brief)
Methotrexate therapy in trophoblastic disease at Provincial Taipei Hospital (1955-1966) (Hsu and Cheng), 60
Midforceps operations at University of Alberta Hospital (1965-1967) (Dunlop), 471
Molar pregnancies, observations on 138 (Westerhout, Morel, and Slate), 56
Molds, silicone foam, vaginal reconstruction with (Deen), 930
Mucinous tumors of ovary, DNA content of (Weiss, Richart, and Okagaki), 409
Multiple malignancy of upper genital canal (Woodruff and Julian), 810
Myometrial sclerosis, diffuse (Murphy S.), 403

N

Neonate, surgical emergencies in (Ravitch and Rowe), 1034 (Current developments)
Nicotinamide adenosine dinucleotide, adenosine triphosphate and, seasonal variations of, on normal term placentas (Dawson, Clark, and McGanity), 1141
Noncellular components of placenta (Wynn), 723 (Current developments)
Norethynodrel and mestranol, ultrastructural effects of, on human endometrial stroma cell (Wienke et al.), 102

O

Obstetric anesthesia, prolongation of, study of (Stenger, Blechner, and Prystowsky), 901
risk, adolescent as (Zachler, Andelman, and Bauer), 305
Obstetrics, high-risk. II. Value of semiobjective grading system in identifying vulnerable group (Nesbitt and Aubry), 972
hyperventilation in (Lumley et al.), 847
routine endotracheal intubation in (Smiler et al.), 947
Operations, midforceps, at University of Alberta Hospital (1965-1967) (Dunlop), 471
Operative treatment of Fallopian tube pathology in human fertility (O'Brien, Arronet, and Eduljee), 520
Osmotic pressures, colloidal, of human maternal and fetal blood plasma (Hinkley and Blechner), 71
Oral care of pregnant patient, responsibility of physician toward (Marder), 437 (Pertinent comments)
contraceptives, alkaline phosphatase activity of polymorphonuclear leukocytes in relation to (Sammour and Hilal), 823
pregnant women and those taking, zinc and copper levels in (O'Leary and Spellacy), 131 (Current investigation)
started early in puerperium (Frank, Alpern, and Eshbaugh), 112
progestins, prolonged anovulation subsequent to (Rankin), 919
Ovarian carcinoid (Toker), 1019
cycle, uterine vascular changes during (Greiss and Anderson), 629
disease, polycystic induction of, in rats by continuous light. I. Reproductive cycle, organ weights, and histology of ovaries (Singh), 1078
malignancies, radioactive colloidal chromic phosphate in treatment of (Hester and White), 911
scan with human chorionic gonadotropin-I^{131} (Hreshchyshyn and Kazeto), 434 (Current investigation)
transplantation (Shaffer and Hulka), 78
vein syndrome, right, diagnosis of (Pereira, Ferreira, and Lane), 888 (Comm. in brief)
thrombophlebitis of (Kaplan, DiMare, and Dennison), 935
Ovary, arrhenoblastoma of, fine structure of Leydig cells from (Berendsen et al.), 192
cancer of, is conservative therapy ever justified in Stage I (IA) (Munnell), 641
menopausal and postmenopausal, steroidogenesis of (Mattingly and Huang), 679
mucinous tumors of, DNA content of (Weiss, Richart, and Okagaki), 409
polycystic, syndrome, abnormal estrogen responses to ACTH stimulation in (Barlow), 585 (Current investigation)
women with normal and, comparison of estrogen feedback control mechanism between (Lopez, Migeon, and Jones), 555
Oxygen, carbon dioxide, and hydrogen ion concentration in arterial and uterine venous blood of pregnant goats (Cotter, Blechner, and Prystowsky), 1102
consumption, blood flow and, in pregnant goats (Cotter, Blechner, and Prystowsky), 1098
dissociation curves of lysed maternal and fetal erythrocytes (Seeds, Hellegers, and Battaglia), 68
hyperbaric, pretreatment with, effects of, on response to anoxia and survival on resuscitation of newborn rabbits (Milligan and Talner), 504

P

Parenteral steroids, effect of, on induction of genital tumors in mice by 20-methylcholanthrene (Blanzat-Reboud and Russfield), 96
Patency, tubal, evaluation by methylene blue test (Ansari), 1170 (Comm. in brief)
Pathology, Fallopian tube, in human fertility, operative treatment of (O'Brien, Arronet, and Eduljee), 520
Patient presentation: Panel discussion, 908-910
Pelvic actinomycosis (Farrior and Rathbun), 908
Perforation, uterine, following insertion of loop (Liao, Lee, and Chow), 224
Perfusion of placenta, preferential, circulatory homeostasis by (Bieniarz et al.), 19
Peripheral blood, effect of gynecologic cancer on: altered in vitro erythrocyte kinetics of ^{86}Rb (Overstreet and Scott), 801

Peritoneal lavage and filtration for cytology (Floyd et al.), 425
Pertinent comments, 133-137, 437-443, 713-722, 1028-1033
Phosphate activity, alkaline, of polymorphonuclear leukocytes in relation to oral contraceptives (Sammour and Hilal), 823
Pituitary-adrenocortical effect of short- and long-term progestational therapy (Ansari and Beck), 511
Placenta and amnion, canine, ultrastructure of (Wynn and Corbett), 878
human, from normal pregnancies and from pregnancies associated with fetal malnutrition, pathways of glucose metabolism in (Sybulski and Tremblay), 1148
noncellular components of (Wynn), 723 (Current developments)
in normal preterm, term, and intrauterine growth-retarded infants, chemical composition of (Younoszai and Haworth), 262
term, seasonal variation of adenosine triphosphate and nicotinamide adenosine dinucleotide on (Dawson, Clark, and McGanity), 1141
perfusion of, preferential, circulatory homeostasis by (Bieniarz et al.), 19
radionuclide localization of, accuracy of (Werch and Burdine), 354
term, nine cation levels of, study of. II. Changes associated with toxemia and fetal prematurity (Dawson et al.), 1144
Placental calcifications (Hassler), 348
dimensions and relations in preterm, term, and growth-retarded infants (Younoszai and Haworth), 265
function, abortion in midpregnancy by extraovular instillation of rivanol solution correlated with (Manabe), 232
glycogen content and utilization in vitro in fetal malnutrition (Sybulski and Tremblay), 257
lactogenic hormone, effects of, on glycine-1-C^{14} incorporation into liver protein of rat (Burt, Pegram, and Leake), 44
localization (Kohorn et al.), 868
metabolism, effect of trace metals on (Dawson et al.), 253
progesterone synthesis, precursor steroids in, utilization of (Kitchin et al.), 48
transfer and disposition of bilirubin in pregnant monkey (Bashore, Smith, and Schenker), 950
Plasma, blood, human maternal and fetal, colloidal osmotic pressures of (Hinkley and Blechner), 71
insulin and human growth hormone, response of, in pregnant and postpartum females (Tyson et al.), 313
Polycystic ovarian disease, induction of, in rats by continuous light. I. Reproductive cycle, organ weights, and histology of ovaries (Singh), 1078
ovary syndrome, abnormal estrogen responses to ACTH stimulation in (Barlow), 585 (Current investigation)

Population growth, economics and (Kaplan and Chez), 133 (Pertinent comments)
Postmenopausal ovary, menopausal and, steroidogenesis of (Mattingly and Huang), 679
Posture and uterine contractions (Ueland and Hansen), 1
Precursor steroids in placental progesterone synthesis, utilization of (Kitchin et al.), 48
Pregnancy in adolescent. I. Preliminary summary of health status (McGanity et al.), 773
duration of, cigarette smoking and (Buncher), 942
fetal and maternal immunoglobulin levels during (Gusdon), 895
Pregnancy—Cont'd
HPL and, effect of, on glucose uptake in rat adipose tissue (Leake and Burt), 39
human, late, aortocaval compression by uterus in (Bieniarz et al.), 19
thyroid function in. II. Serum butanol-extractable iodine values of pregnant women 14 through 44 years (Man et al.), 328
III. Serum thyroxine-binding prealbumin (TBPA) and thyroxine-binding globulin (TBG) of pregnant women 14 through 43 years (Man et al.), 338
medroxyprogesterone therapy during, simulated congenital adrenal hyperplasia in male neonate associated with (Limbeck, Ruvalcaba, and Kelley), 1169 (Comm. in brief)
molar, observations on 138 (Westerhout, Morel, and Slate), 56
prolonged, studies of. I. Incidence of prolonged pregnancy (Beischer, Evans, and Townsend), 476
II. Clinical results and urinary excretion in prolonged pregnancy (Beischer et al.), 483
III. Amniocentesis in prolonged pregnancy (Beischer, Brown, and Townsend), 496
tests, comprehensive evaluation of (Cabrera), 32
thyroid function during and after, evaluation of (Mestman et al.), 322
toxemias of, uterine contractility in, study of (Noriega-Guerra et al.), 244
transfer of ^{14}C-thiouracil during (Sabbagha and Hayashi), 121 (Current investigation)
twin, unilateral tubal (Weekes, De Francisco, and Miller), 1172 (Comm. in brief)
Pregnanediol, pregnanolone, and pregnanetriol, urinary, simultaneous determination of, by gas-liquid chromatography (Vela, Acevedo, and Campbell), 179
Pregnanetriol, pregnanolone, pregnanediol, and, urinary, simultaneous determination of, by gas-liquid chromatography (Vela, Acevedo, and Campbell), 179
Pregnanolone, pregnanediol, and pregnanetriol, urinary, simultaneous determination of, by gas-liquid chromatography (Vela, Acevedo, and Campbell), 179
Pregnant women, healthy, circadian rhythms of creatinine and electrolyte excretion in (Kalousek et al.), 856
oral care of, responsibility of physician toward (Marder), 437 (Pertinent comments)
and postpartum females, response of plasma insulin and human growth hormone in (Tyson et al.), 313
Preimplantation effect of intrauterine device in rabbit (Hussein and Ledger), 221
Prematurity, epidemiologic study of. III. Relation of prenatal care, birth interval, residential history, and outcome of previous pregnancies (Terris and Gold), 371
I. Relation of smoking, heart volume, employment, and physique (Terris and Gold), 358
Premenstrual-menstrual increases in psychiatric hospital admission rates (Janowsky et al.), 189
Presentation, breech, cephalometry by ultarsound in, evaluation of (Scher), 1125
Preservation, freeze, of human sperm (Behrman and Ackerman), 654
Pressures, osmotic, colloidal, in human maternal and fetal blood plasma (Hinkley and Blechner), 71
of voiding, basic, in adult female (Hodgkinson and Morgan), 755
Pretreatment with hyperbaric oxygen, effects of, on response to anoxia and survival on resuscitation in newborn rabbits (Milligan and Talner), 504
Primary amenorrhea, cytogenetic studies of (Chiang), 1173 (Comm. in brief)

Progestational agents and blood coagulation. II (Ambrus et al.), 994
treatment of advanced endometrial carcinoma with (Peck and Boyes), 90
therapy, short- and long-term, pituitary-adrenocortical effect of (Ansari and Beck), 511
Progesterone synthesis, placental, precursor steroids in, utilization of (Kitchin et al.), 48
Progestins, oral, anovulation subsequent to (Rankin), 919
Progestogen, estrogen-, contraceptive drug, monthly injections of, cyclic endometrial changes in response to (Sheffield, Soule, and Herzog), 828
Prolongation of obstetric anesthesia, study of (Stenger, Blechner, and Prystowsky), 901
of survival time of corpus luteum (Rivera and Sherman), 986
Prolonged anovulation subsequent to oral progestins (Rankin), 919
pregnancy, studies of. I. Incidence of prolonged pregnancy (Beischer, Evans, and Townsend), 476
II. Clinical results and urinary excretion in prolonged pregnancy (Beischer et al.), 483

Protein, liver, of rat, effect of placental lactogenic hormone on glycine-1-C^{14} incorporation (Burt, Pegram, and Leake), 44
Prothrombin, fibrinogen and, in maternal and cord blood (Devi and Naganna), 73
Psychiatric hospital admission rates, premenstrual-menstrual increases in (Janowsky et al.), 189
Puerperal pulmonary function, early, some factors influencing (Skovsted, Hudson, and Marshall), 128 (Current investigation)
Puerperium, oral contraception started early in (Frank, Alpern, and Eshbaugh), 112
uterine contractility on first day of (Cibils and Hendricks), 238
Pulmonary function, early puerperal, some factors influencing (Skovsted, Hudson, and Marshall), 128 (Current investigation)
metastasis, trophoblastic disease with (Turner), 909

R

Radioactive colloidal chromic phosphate in treatment of ovarian malignancies (Hester and White), 911
Radionuclide localization of placenta, accuracy of (Werch and Burdine), 354
^{86}Rb, altered in vitro erythrocyte kinetics of (Overstreet and Scott), 801
Reconstruction, vaginal, with silicone foam molds (Deen), 930
Resuscitation, survival on, response to anoxia and, on newborn rabbits, effect of pretreatment with hyperbaric oxygen on (Milligan and Talner), 504
Rh isoimmunization, management of patients with, based on amniotic fluid examination (Robertson), 713 (Pertinent comments)
Rhythms, circadian, of creatinine and electrolyte excretion in healthy pregnant women (Kalousek et al.), 856
Ring, Gräfenberg, contraception with (Hill), 200
Risk, obstetric, adolescent as (Zachler, Andelman, and Bauer), 305
Rivanol solution, extraovular instillation of, abortion in midpregnancy by, correlated with placental function (Manabe), 232
Roster, 158-163
Routine endotracheal intubation in obstetrics (Smiler et al.), 947
Rudimentary testes, intra-abdominal, female external genitals and, intersexuality characterized by (Boczkowski and Teter), 1167 (Comm. in brief)

S

Sarcoma, endometrial, in 14-year-old girl (Doolan), 909
Scan, ovarian, with human chorionic gonadotropin-I^{131} (Hreshchyshyn and Kazeto), 434 (Current investigation)
Science, diagnostic, new, on launching (Donald), 609
Sclerosis, myometrial, diffuse (Murphy S.), 403
Seasonal variation in adenosine triphosphate and nicotinamide adenosine dinucleotide on normal term placenta (Dawson, Clark, and McGanity), 1141
Self-purification (Presidential Address) (Beecham), 605
Septicemia, Candida albicans, successful treatment of (Horowitz, McCartin, and Gordon), 889 (Comm. in brief)
Silicone foam molds, vaginal reconstruction with (Deen), 930
Skeletons of rats and mice, effect of acetophenide derivative of 16α,17α-dihydroxyprogesterone on (Simmons and Cummins), 1002
Smears, cytologic vaginal wall, failure of, to predict abortion (McLennan and McLennan), 228
Smoking, cigarette, and duration of pregnancy (Buncher), 942
Smooth muscle cell boundary, uterine, fine structural changes of, during gestation (Dessouky), 1117

Syndrome, Klinefelter's, undetected, as cause of azoospermia (Chiang and Chiang), 592 (Comm. in brief)
ovarian vein, diagnosis of (Pereira, Ferreira, and Lane), 888 (Comm. in brief)
polycystic ovary, abnormal estrogen responses to ACTH stimulation in (Barlow), 585 (Current investigation)
Turner's, with 45,X karyotype in two generations, presence of (Boczkowski, Herman, and Jedrzejewski), 597 (Comm. in brief)

Synthesis, progesterone, placental, precursor steroids in, utilization of (Kitchin et al.), 48
Systemic hemodynamic interrelationships, uterine and, and response to hypoxia (Dilts et al.), 138 (Current developments)

T

Testes, rudimentary intra-abdominal, female external genitals and, intersexuality characterized by (Boczkowski and Teter), 1167 (Comm. in brief)
Tests, pregnancy, comprehensive evaluation of (Cabrera), 32
Thrombophlebitis of ovarian vein (Kaplan, DiMare, and Dennison), 935
Thymidine, tritiated, uptake of, in human decidual cells (Kury, Rev-Kury, and Craig), 297 (Current investigation)
Thyroid function during and after pregnancy, evaluation of (Mestman et al.), 322
in human pregnancy. II. Serum butanol-extractable iodine values of pregnant women 14 through 44 years (Man et al.), 328
III. Serum thyroxine-binding prealbumin (TBPA) and thyroxine-binding globulin (TBG) of pregnant women 14 through 43 years (Man et al.), 338
Tissue, adipose, rat, effect of HPL on glucose uptake in (Leake and Burt), 39
Tolerance, glucose, intravenous, in women, effect of estrogen on (Goldman and Ovadia), 172
Toxemias of pregnancy, uterine contractility in, study of (Noreiga-Guerra et al.), 244
Trace metals, effect of, on placental metabolism (Dawson et al.), 253
Transactions of seventy-ninth annual meeting of American Association of Obstetricians and Gynecologists, 605-710, 755-822

Transfer of ^{14}C-thiouracil during pregnancy (Sabbagha and Hayashi), 121 (Current investigation)
placental, and disposition of bilirubin in pregnant monkey (Bashore, Smith, and Schenker), 950
Transfusions, autologous, for elective cesarean section (Milles, Browne, and Barrick), 1166 (Comm. in brief)
intrauterine fetal, in treatment of erythroblastosis fetalis (Horger and Hutchinson), 959
maternofetal (El-Alfi and Hathout), 599 (Comm. in brief)
Transplantation, ovarian (Shaffer and Hulka), 78
Transport and distribution of ^{59}Fe and ^{131}I, maternal-fetal, in humans (Dyer et al.), 290 (Current investigation)
Trophoblastic disease, methotrexate therapy in, at Provincial Taipei Hospital (1955-1966) (Hsu and Cheng), 60
with pulmonary metastasis (Turner), 909
Tubal histochemistry in rabbit, intrauterine device and, relationship between (Hussein and Ledger), 213
patency evaluation with methylene blue test (Ansari), 1170 (Comm. in brief)
twin pregnancy, unilateral (Weekes, De Francisco, and Miller), 1172 (Comm. in brief)
Tube, Fallopian, fluid, in monkey, some observations on (Mastroianni et al.), 703
pathology, operative treatment of, in human fertility (O'Brien, Arronet, and Eduljee), 520
tuberculous, carcinoma arising in (Hameed), 595 (Comm. in brief)
Tuberculous Fallopian tube, carcinoma arising in (Hameed), 595 (Comm. in brief)
Tumors, genital, in mice, induction of, by 20-methylcholanthrene, effect of parenteral steroids on (Blanzat-Reboud and Russfield), 96
of ovary, mucinous, DNA content of (Weiss, Richart, and Okagaki), 409
Turner's syndrome with 45,X karyotype in two generations, presence of (Boczkowski, Herman, and Jedrzejewski), 597 (Comm. in brief)
Twin pregnancy, unilateral tubal (Weekes, De Francisco, and Miller), 1172 (Comm. in brief)
dizygotic, uneven degree of erythroblastosis in (Rezai and Montague), 1163 (Comm. in brief)

U

Ultrasound (Kobayashi, Hellman, and Fillisti), 1131
cephalometry by, in breech presentation, evaluation of (Scher), 1125
Ultrastructural effects of norethynodrel and mestranol on human endometrial stroma cell (Wienke et al.), 102
Ultrastructure of canine placenta and amnion (Wynn and Corbett), 878
Umbilical cord and umbilical vessels, human, innervation of (Fox and Jacobson), 384
vessels, umbilical cord and, human, innervation of (Fox and Jacobson), 384
Uptake, glucose, in rat adipose tissue, effect of HPL and pregnancy on (Leake and Burt), 39
of tritiated thymidine in human decidual cells (Kury, Rev-Kury, and Craig), 297 (Current investigation)
Urethral floor, loss of, with total urinary incontinence (Symmonds), 665
Urinary excretion in prolonged pregnancy, clinical results and (Beischer et al.), 483
incontinence, total, loss of urethral floor with (Symmonds), 665
pregnanolone, pregnanediol, and pregnanetriol, simultaneous determination of, by gas-liquid chromatography (Vela, Acevedo, and Campbell), 179
stress incontinence in women, surgical treatment of (Gaina), 1163 (Comm. in brief)
Uterine blood flow, changes in, during uterine contractions (Brotanek, Hendricks, and Yoshida), 1108
cancer, localization of fibrinolytic activity in (Weiss and Beller), 1023 (Current investigation)
cervix, mouse, carcinogenesis and epidermization during 20-methylcholanthrene treatment of, relationship of (Singh), 1084
contractions, changes in uterine blood flow during (Brotanek, Hendricks, and Yoshida), 1108
posture and (Ueland and Hansen), 1
on first day of puerperium (Cibils and Hendricks), 238
in toxemias of pregnancy, study of (Noriega-Guerra et al.), 244
perforation following insertion of loop (Liao, Lee, and Chow), 224
smooth muscle cell boundary, fine structural changes of, during gestation (Dessouky), 1117
spasm, lower, normal labor and, friction between fetal head and uterine wall during (Lindgren and Holmlund), 939
and systemic hemodynamic interrelationships and responses to hypoxia (Dilts et al.), 138 (Current developments)
vascular changes during ovarian cycle (Greiss and Anderson), 629
venous blood, arterial and, in pregnant goats, oxygen, carbon dioxide, and hydrogen ion concentration in (Cotter, Blechner, and Prytowsky), 1102
wall, friction between fetal head and, during normal labor and uterine spasm (Lindgren and Holmlund), 939

Uterus, aortocaval compression by, in late human pregnancy (Bieniarz et al.), 19

V

Vaginal reconstruction with silicone foam molds (Deen), 930
wall cytologic smears, failure of, to predict abortion (McLennan and McLennan), 228
Vascular changes, uterine, during ovarian cycle (Greiss and Anderson), 629
Vein, ovarian, thrombophlebitis of (Kaplan, DiMare, and Dennison), 935
Vein, ovarian—Cont'd
right, syndrome, diagnosis of (Pereira, Ferreira, and Lane), 888 (Comm. in brief)
Vessels, umbilical, umbilical cord and, innervation of (Fox and Jacobson), 384
Voiding, basic pressures of, in adult female (Hodgkinson and Morgan), 755

Z

Zinc and copper levels in pregnant women and those taking oral contraceptives (O'Leary and Spellacy), 131 (Current investigation)
